STIGLER

HISTORY OF THE "STIGLER" LIFTS

Over 50 years ago the first **Stigler Lift** was dispatched from a small factory in Milan (Italy) to be installed in the Grand Hotel **Costanzi** in **Rome** (Italy). It caused a great sensation. Such a development as a **Lift** was almost unknown at that time either in Italy or abroad.

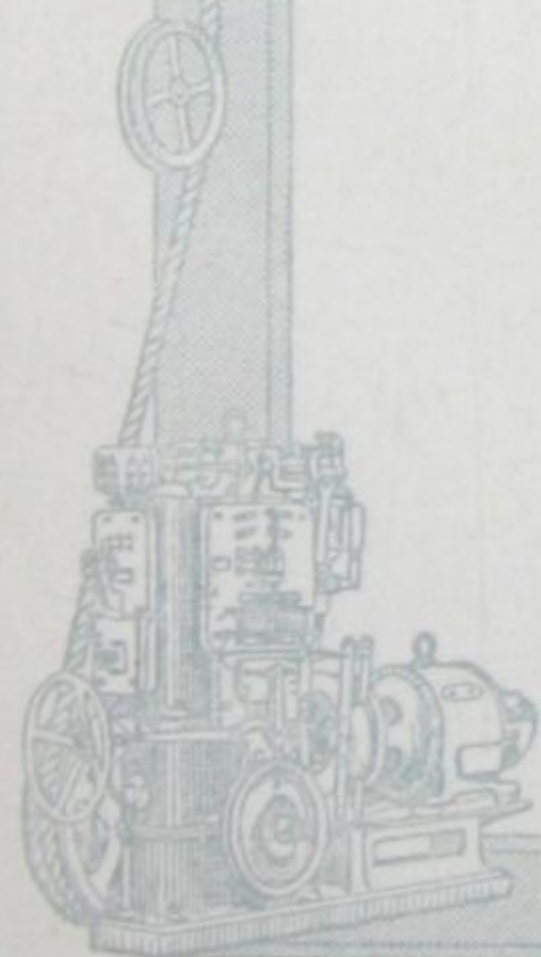

It was about 1870 that Monsieur Auguste **Stigler**, an engineer of Milan evolved the first idea of constructing a **Hydraulic Lift**, so as to transport passengers to the various floors of an Hotel, a very hazardous experiment at that period, and the more difficult on account of the prejudice and scepticism of owners and Architects, who could only visualise the new invention as an extremely expensive and very dangerous contraption.

The first experiment did not give good results, but so far from being discouraged, the inventor by means of his scientific knowledge was able to persuade the same proprietor to replace this lift by another one constructed on an entirely new principle based on the experience gained in his first attempt.

This decision having been arrived at in 1871 the second **Stigler Hydraulic Lift** was despatched from the factory in Milan, and was installed without delay in the same Hotel in Rome.

This time, the energy and experience of the inventor bore good fruit, and the effective working of the new lift achieved truly marvellous results so that it attracted the attention of the whole of the engineering profession throughout Italy, and indeed throughout **Europe**.

The new patent proved to be a revolutionary nature, and thanks to the perfect manner in which it functioned, established the reputation of the **Stigler Lift** throughout the World. The continuous improvements in the design which have taken place have completely confirmed the original reputation of the **Stigler Lift**.

STIGLER

To the inventive spirit and constructive skill of the Founder of the Firm was added in 1884 the activity of his two sons Messrs. **Maxime** and **Auguste Stigler**, and at a later date that of his third son Mr. **Charles Stigler**, all qualified engineers.

The unswerving determination to live up to the motto to the **Stigler** firm "**Excelsior**" is best proved by the enormous **Stigler Factory** now erected in Milan, capable of employing more than 2000 workmen, and of producing over 2000 Lifts per annum.

The attention of the principals of the firm was directed in 1894 to the application of **Electric Power**, as a motive for lifts. The first **Stigler Electric Lift**, made its appearance in 1895 with rope control, replaced thereafter by push buttons. This invention, with its efficiency, cleanliness and simplicity of control has proved of the greatest possible service in the development of modern Blocks of Flats, large Hotels, and Office Buildings.

The new patent again proved to be a complete revolution in Lift building and once more crowned the world wide reputation of the **Stigler Lift**. The new method of Electrical Power and Control was enthusiastically adopted everywhere. Nearly all new lifts were built on this principle, and hydraulic power was rapidly replaced wherever possible by electricity.

The demand for Stigler Lifts was so great that a Company was formed to take over the business in 1907 with a Capital equivalent to £ 200.000, increased again in 1923 to £ 400.000.

Several years before the war a **Large Foundry**, built on the most modern principles, was attached to the Factory.

Agencies have been created throughout the World to deal with the huge demand for Stigler Lifts, and attached to these Agencies are engineers of the highest skill, who carry out the erection and maintenance of these elevators.

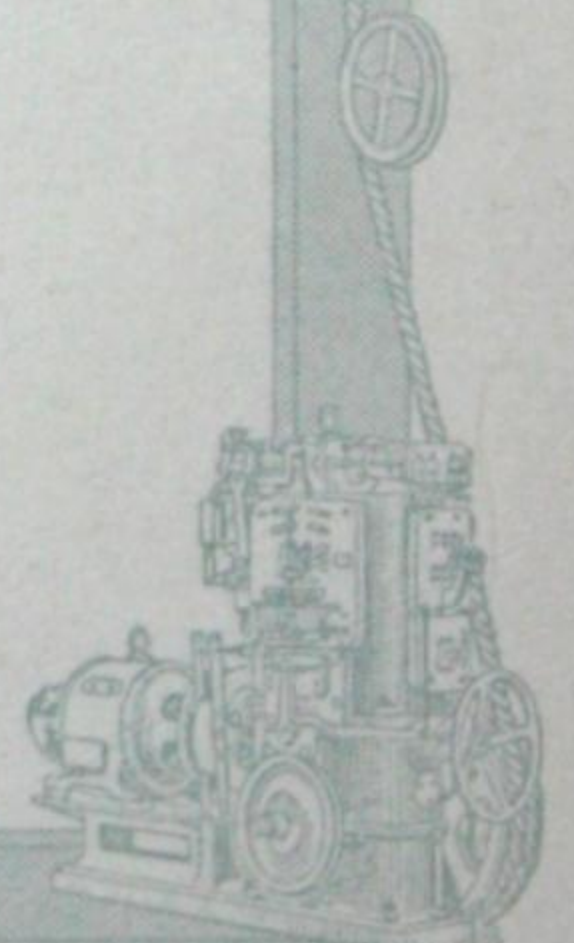

The **Stigler Lifts** were introduced into **Great Britain** in 1900, and since then have been erected in great number throughout the **British Empire**. Reports recently received on the conditions of lifts erected nearly a quarter of a century ago demonstrate that these are to-day still in perfect working order, and will be so for another indefinite period.

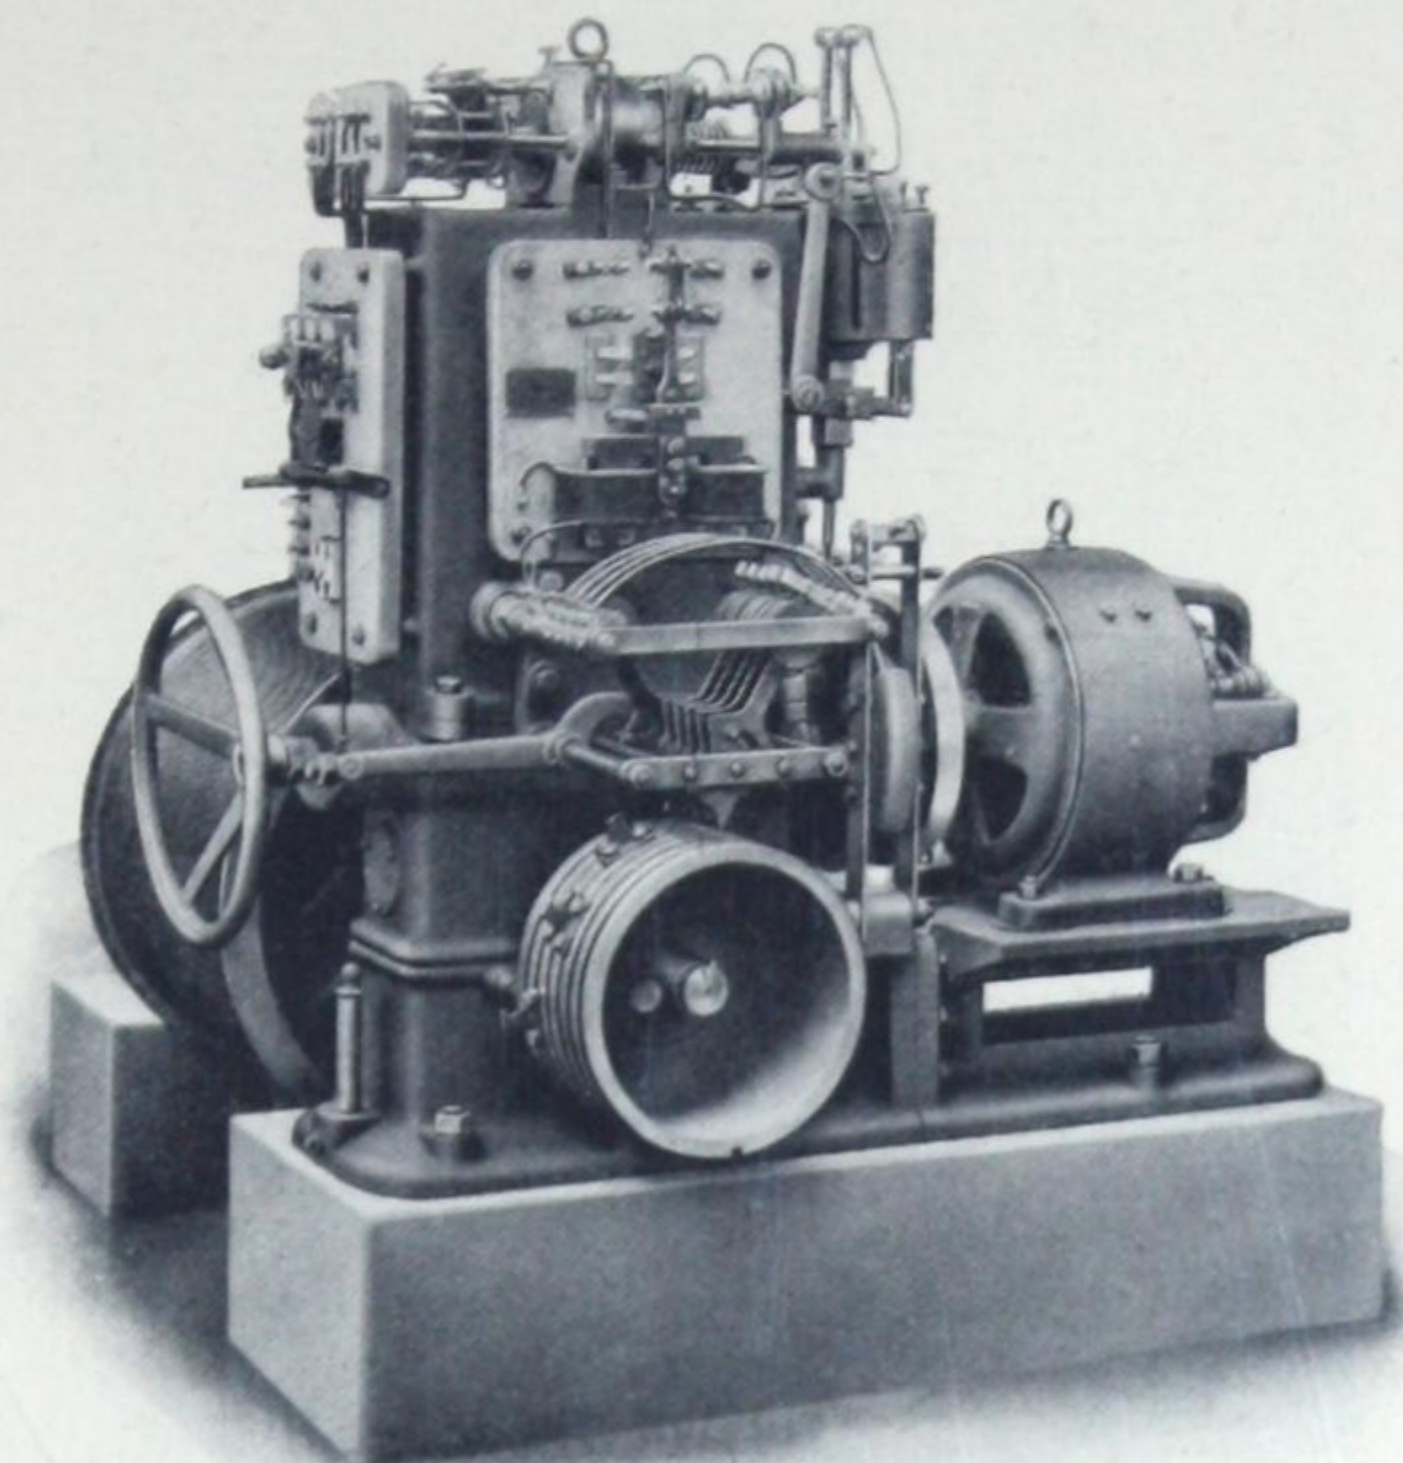

Copies of many letters and reports are reproduced in this book, and it is specially desired to direct the readers attention to them.

Messrs **Stigler** and their Agents will give all the information required relative to erection of **Lifts** either for **Passenger, Goods or any other Service**, together with estimates and drawings without charge.

ALEXANDRIA

February 8th 1921

The General Electric & Engineering Co., Alexandria.

We hasten to reply to your esteemed letter of the 4th inst. We have the greatest pleasure in stating that the Stigler Lift, which has been in use at least 15 years, we having been the first to adopt this type of Lift in Egypt, has never ceased to give us full and entire satisfaction.

During all this time we have not had to make any serious repairs to this Lift, which shows no sign of wear in spite of the continual use to which it has been put.

We cannot better express to you, our satisfaction than by saying that if we require another Lift we shall certainly choose a Stigler.

We authorize you to make what use you like of this letter.

We beg to remain,

Yours faithfully,

*Grands Magasins Hannaux

UFFICIO DEL FORIERE MAGGIORE
DEI SS. PP. AA.
(THE PAPAL RESIDENCE)

5th April 1921

It gives me great pleasure to comply with the wish expressed in your letter of the March 31st.

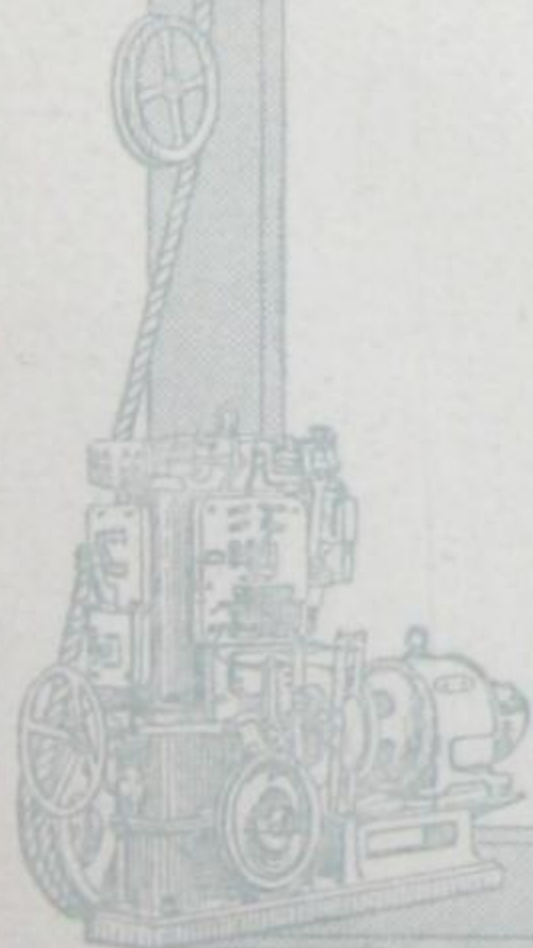

On the occasion of the Fiftieth Anniversary of Messrs. Stigler's I have the honour to offer my sincere congratulations on the enormous development which you have been able to bring about in an Industry established by the Founder of your Firm the late Engineer, Mr. Augusto Stigler.

Originally with him, afterwards with his Sons, and now with the Directors of the Company, during the 38 years, since the first installation of a Hydraulic Lift, our Administration has always had amicable dealings. We have readily entrusted to you orders for an important series of Electric and Hydraulic Lifts. Among there is the Passenger Lift erected in the Apartments of His Holiness the Pope, which besides being perfect in its mechanism shows in its car design a very remarkable artistic taste.

With every good wish, I remain

Yours truly,

Comm. J. Mannucci.

STIGLER

F. S. & L. SPINELLI

NAPLES, January 20th 1921

Messrs. Stigler, Engineers, Milan.

We are happy to inform you that whenever the question of installing Lifts in our Establishment arises your Firm has always had our preference. Up to the time of writing we have the following Lifts in operation.

- 1 Passenger Lift since 1904 at the Office of Magazzini Nazionali Fratelli Spinelli, Corso Umberto I.
- 2 Passenger Lifts since 1908 in our Establishment Via Pietro Coletta 12.
- 2 Passenger Lifts since 1909 in our Establishment, Via Agostino Depretis.
- 1 Passenger Lift since 1903 in our Establishment, Via Antonio Ciccone 15.
- 6 Passenger Lifts since 1913 in the Palais, Via dei Mille 16.
- 2 Passenger Lifts in the Establishment, Viale Elena 19.

Further we have just recently ordered two more Passenger Lifts which will very soon be working in our new Premises, Via Caracciolo.

In testifying to you our satisfaction and in wishing an increasing prosperity to your works, we remain

Yours faithfully,

F. S. & L. Spinelli.

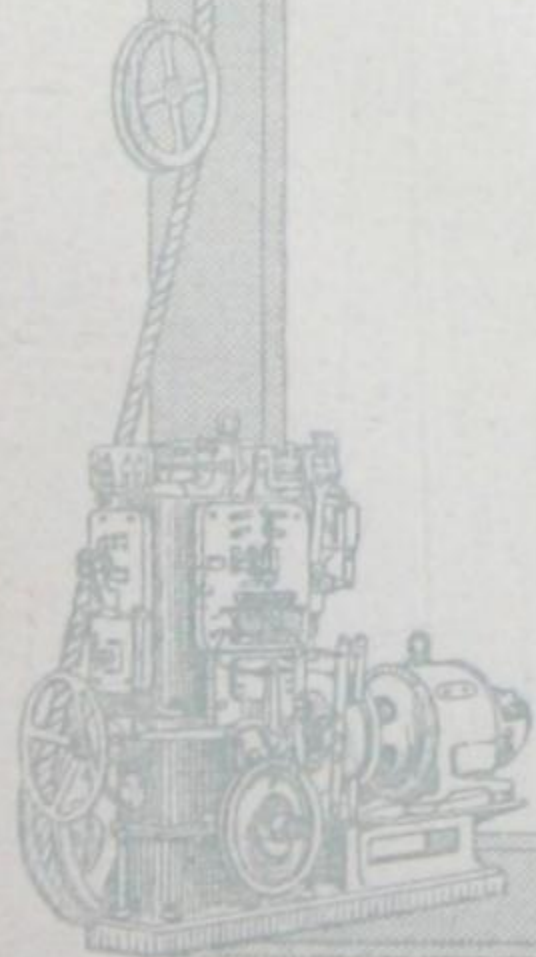

SEZIONE STACCATA DEL GENIO MILITARE
PER LA MARINA

NAPLES, February 5th 1921

This is to certify that Messrs. Stigler, Engineers of Milan, have executed for the Royal Navy and under orders from the Section above mentioned the following works:

1. Installation of an Electric Passenger Lift in The Admiralty, Naples.
2. Installation of an Electric Goods Lift in the Royal Naval Biscuit Factory, Naples.
3. Installation of an Electric Goods Lift in the Royal Naval Hospital, Piedigrotta.
4. Installation of an Electric Goods Lift in the "Mandrachio" at Naples.

These installations have been carried out in a very praiseworthy manner and have given excellent results in operation without causing any inconvenience whatever.

GENOA, January 28th 1921

Messrs. Rossi & Schmidt.

In reply to your letter I am glad to be able to state that I have always been satisfied with the material supplied by Messrs. Stigler of Milan, whose Agency you hold.

The numerous installations that Messrs. Stigler have supplied for me and my clients give me the opportunity of testifying to their solidity and quality of materials supplied, the practical simplicity of their control system and their safety devices.

I am equally certain that, for the Stigler installation ordinary maintenance is sufficient to keep it efficient and that it does not demand high repair costs, even after several years use. I can say this from my experience of several Lifts which you have supplied to me and I consider myself in a position to recommend the Stigler Lifts.

Yours faithfully,

G. Celle, Engineer.

"LIFTS" LIGURE CO. LTD.

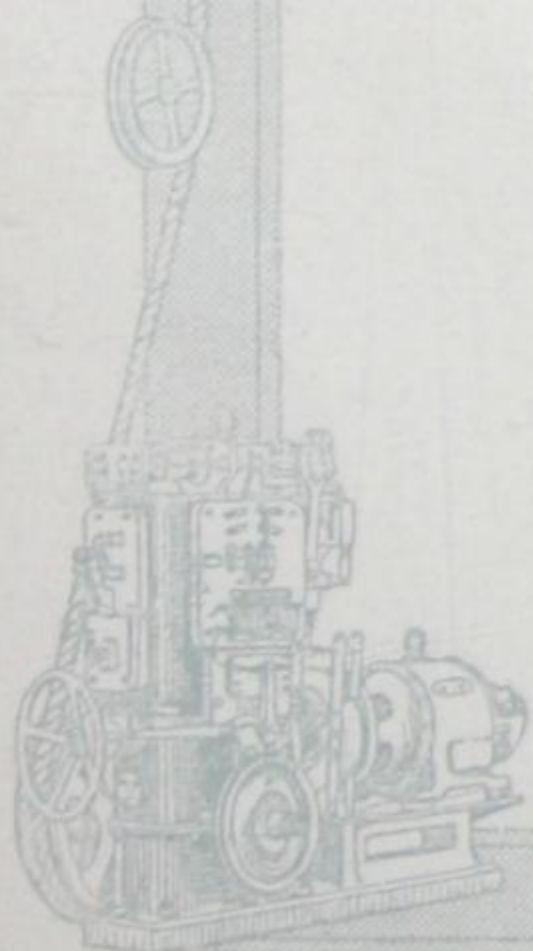

GENOA, January 8th 1921

We are happy to inform you that the two "Stigler" Electric Lifts supplied to the Company since 1909 for the Public service from Portello to Castelletto have given excellent results, both in regard to continual use and consumption of current.

The Lifts in question have a vertical travel of 188 feet at a speed of 210 feet per minute with a load of 16 persons.

Yours faithfully,

*D. Sartorio, Engineer
Technical Director*

In reply to your esteemed request of the 6th inst. we wish to inform you that we are entirely satisfied with all parts of the two Stigler Lifts that you delivered to us.

Your Passenger Lift which was installed in our Establishment in 1914, has been working up to the time of writing to our complete satisfaction and has caused us no worry.

The last Lift, a 1-ton Goods-Lift, with Universal Push Buttons is also working excellently and is easy to handle.

We are Dear Sir

Yours faithfully,

The Director.

DUTCH INSURANCE COMPANY

HAGUE, February 17th 1921

We beg to acknowledge receipt of your letter of the 9th inst. and we take this opportunity of informing you that the Stigler Electric Lifts which you have installed in our Establishment at Amsterdam and at Rotterdam continue to give complete satisfaction.

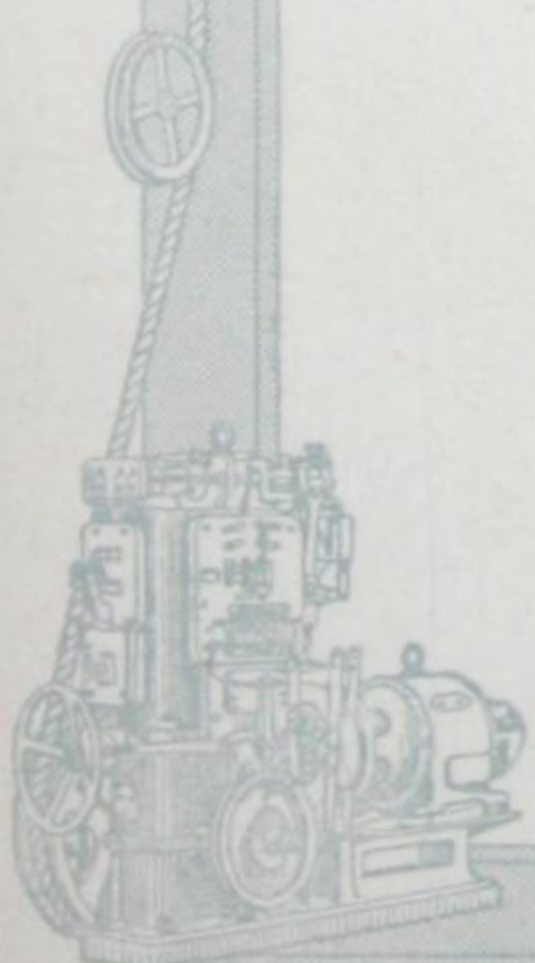

Fire Policies and Life Policies.

ROTTERDAM MUNICIPALITY

ROTTERDAM, February 17th 1921

I am glad to have the opportunity of stating that all the Lifts which were supplied by Messrs. Stigler to the order of the Municipality of Rotterdam for the Hospital, Charitable Institution, and Hotel de Ville have never failed to satisfy in all respects.

Director of Public Works, Municipality of Rotterdam.

STIGLER

NOUVELLE UNIVERSITÉ - ZURICH

May 12th 1924

We are quite willing to certify that the Stigler Company of Milan, has supplied to the new Université Cantonale de Zurich, an Electric Passenger Lift for 8 Passengers, travel 142 feet. The whole of the installation has been carried out with great care and it is working with great efficiency.

Fietz.

SWISS NATIONAL BANK

CERTIFICATE

This is to certify that the two Stigler Electric Passenger-Lifts installed in our new Bank are working to our entire satisfaction.

The Swiss National Bank.

GRAND HOTEL BEAU-RIVAGE

GENEVA

February 2nd 1921

CERTIFICATE

The first machine that Messrs. Stigler of Milan supplied to Geneva was a Goods Lift No. 700 which was installed in 1893 at the Hotel Beau-Rivage.

This machine, since provided with electric Push Buttons is still working to-day as well as it did at its installation.

In 1904, the old "Edoux" Passenger-Lift was replaced by a Stigler with electric Push Buttons.

Finally a Stigler Passenger-Lift was installed in a local Establishment which I constructed here in 1910.

Speaking generally I can only express my complete satisfaction at this type of Lift.

A. Mayer, Proprietor.

LEON BOVY, ARCHITECT

GENEVA

February 21st 1921

DECLARATION

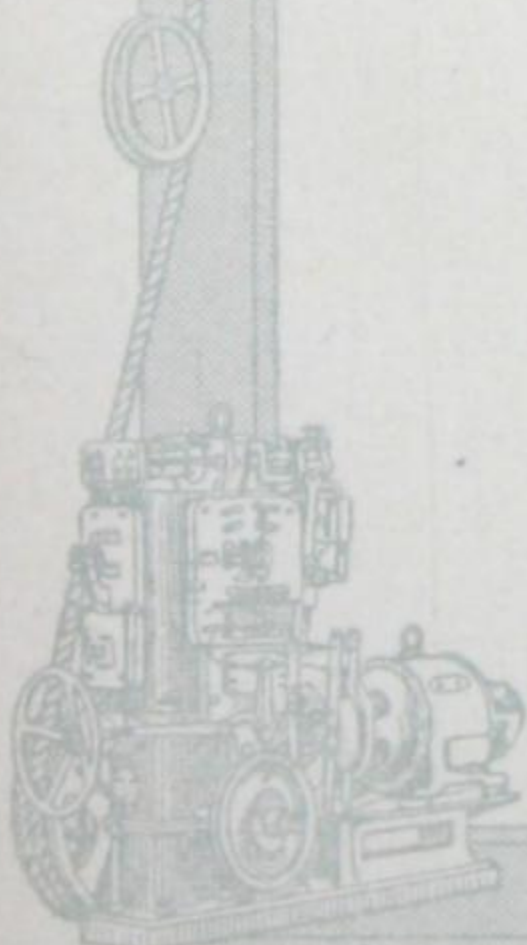

The undersigned declares that Messrs. Stigler of Milan have installed for him about thirty Lifts, and that he has always been extremely satisfied with their work.

Messrs. Stigler are renowned for their business methods, the finish put to their work, their practical advice, and their employment of excellent material assuring strength and durability to their installations.

In short the Lifts which Messrs. Stigler have constructed to my orders for the last 20 years have always possessed solidity and perfect action. Messrs. Stigler's Lifts have always served me best.

I am glad to have this opportunity of bearing witness to these facts.

Leon Bovy, Architect.

STIGLER

MADRID, April 3rd 1920

The undersigned desires to certify that the two Stigler Electric Goods Lift erected by Monsieur Jacobo Schneider, are working perfectly.

*Alfredo De Medina y Fejoo,
Secretary and Barrister to the Credit Lyonnais,
Madrid.*

MADRID, March 13th 1920

Monsieur Jacobo Schneider, Madrid

I beg to inform you that I am entirely satisfied with the Stigler Electric Passenger Lift by you in the Grand Hotel d'Orient. For the last two years it has never been out of order.

I beg to remain,

Yours faithfully,

V.ve de J. Rodriguez.

MADRID, March 29th 1920

Monsieur Jacobo Schneider, Madrid

I have great pleasure in notifying you that the Stigler Passenger and Service Lifts installed by you in the House of Parliament are working perfectly and I consider them to be the finest to be found in Spain.

Antonio Farrès, Architect.

MADRID, April 13th 1919

Dear Sir,

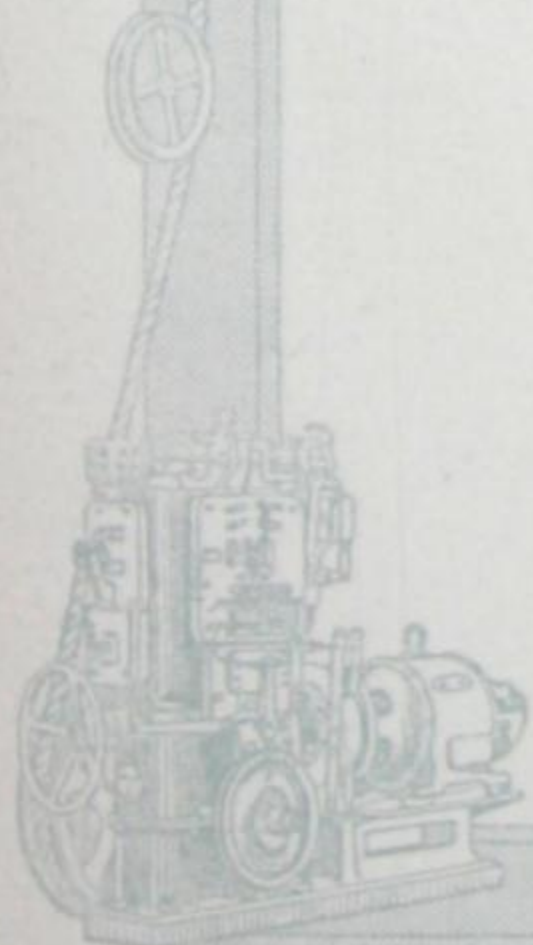

It is a pleasure to me to let you know that the Stigler Passenger Lifts which were erected by you in the Royal Palace, have been greatly appreciated by everyone who uses them.

I can also state that since their installation in 1901, no repair has been necessary.

I beg to remain Dear Sir,

Yours faithfully,

Enrique Repullès Segarra, Architect.

STIGLER

PROF. A. BRESLAUER
GOVERNMENT ARCHITECT

BERLIN, March 22nd 1920

Mr. Augusto Stigler, Engineer, Milan.

Twenty four years ago I purchased a Stigler Lift for my premises in Berlin.

*I am glad to say that the Lift has always worked very well.
I have no doubt that the Lift will continue to work with regularity.*

A. Breslauer.

GUSTAV HAASE
ARCHITECT

BERLIN, November 16th 1911

I take great pleasure in certifying that I am entirely satisfied with the Electric Lift supplied to me ten years ago by Messrs. Stigler. They have needed little repair, and it is for this reason that three years ago I ordered a further two, and during the last year another one. They have all given me complete satisfaction.

My repeated orders are the best proof of the excellent working of your Lifts.

Gustav Haase.

EMIL BISTRITSCHAN
ENGINEER

VIENNA, April 24th 1921

I am happy to state that all the Stigler Lifts that you have supplied to me are working excellently, and during the many years hard work to which they have been subjected no important repairs have been necessary. Their maintenance is very easy; in several of my establishments they are looked after by women.

E. Bistritschan, Engineer.

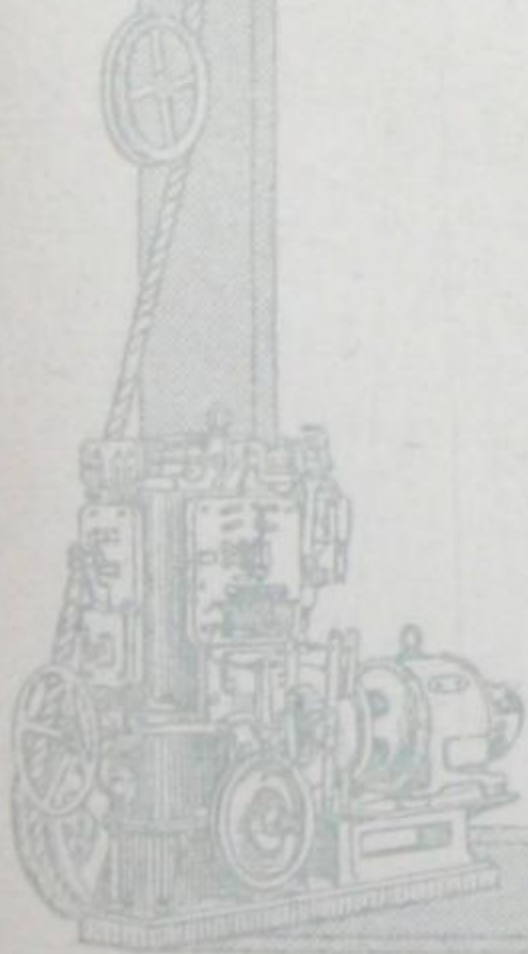

KAUFHAUS DES WESTENS

BERLIN, November 2nd 1921

We have great pleasure in saying that the Stigler Lifts which you supplied to us in 1907 have from that time worked incessantly without requiring any important repairs.

We can in consequence recommend Stigler Lifts to anyone wishing to install a Lift.

Kaufhaus des Westens.

BUCAREST, December 15th 1911

CERTIFICATE

In 1911 The Court Administrators ordered from Messrs. Stigler of 45 via Galileo, Milan, a Lift to be erected for the use of their Majesties The King and Queen in the Royal Palace, Bucarest.

This Lift is working to the entire satisfaction of their Majesties and the Administrators have great pleasure in certifying this.

Basset, Royal Household.

MINISTRY OF PUBLIC WORKS
BUCAREST

BUCAREST, January 27th 1912

CERTIFICATE

This is to certify at the request of Mr. Marcel Porn, that the two Electric Lifts erected in the Ministry of Public Works by Messrs. Stigler of Milan, have been working extremely well since their installation in 1911.

The General Manager.

ATHÉNÉE PALACE HOTEL
BUCAREST

BUCAREST, May 25th 1920

Dear Sirs.

In conformity with the wish that you have expressed, we are willing to state that the Stigler Passenger and Goods-Lifts which were erected by you in the Athénée Palace Hotel, Bucarest, in 1913, have given us entire satisfaction both on account of their solid construction, and their efficient working.

*L. Fornara,
Athénée Palace Hotel, Bucarest.*

GRAND HOTEL CONTINENTAL
BUCAREST

BUCAREST, February 11th 1921

The Directors of the above Hotel have pleasure in stating that the Stigler Passenger-Lift erected by Messrs. Stigler of Milan 15 years ago is still working to their entire satisfaction despite the hard and continual use to which it has been subjected.

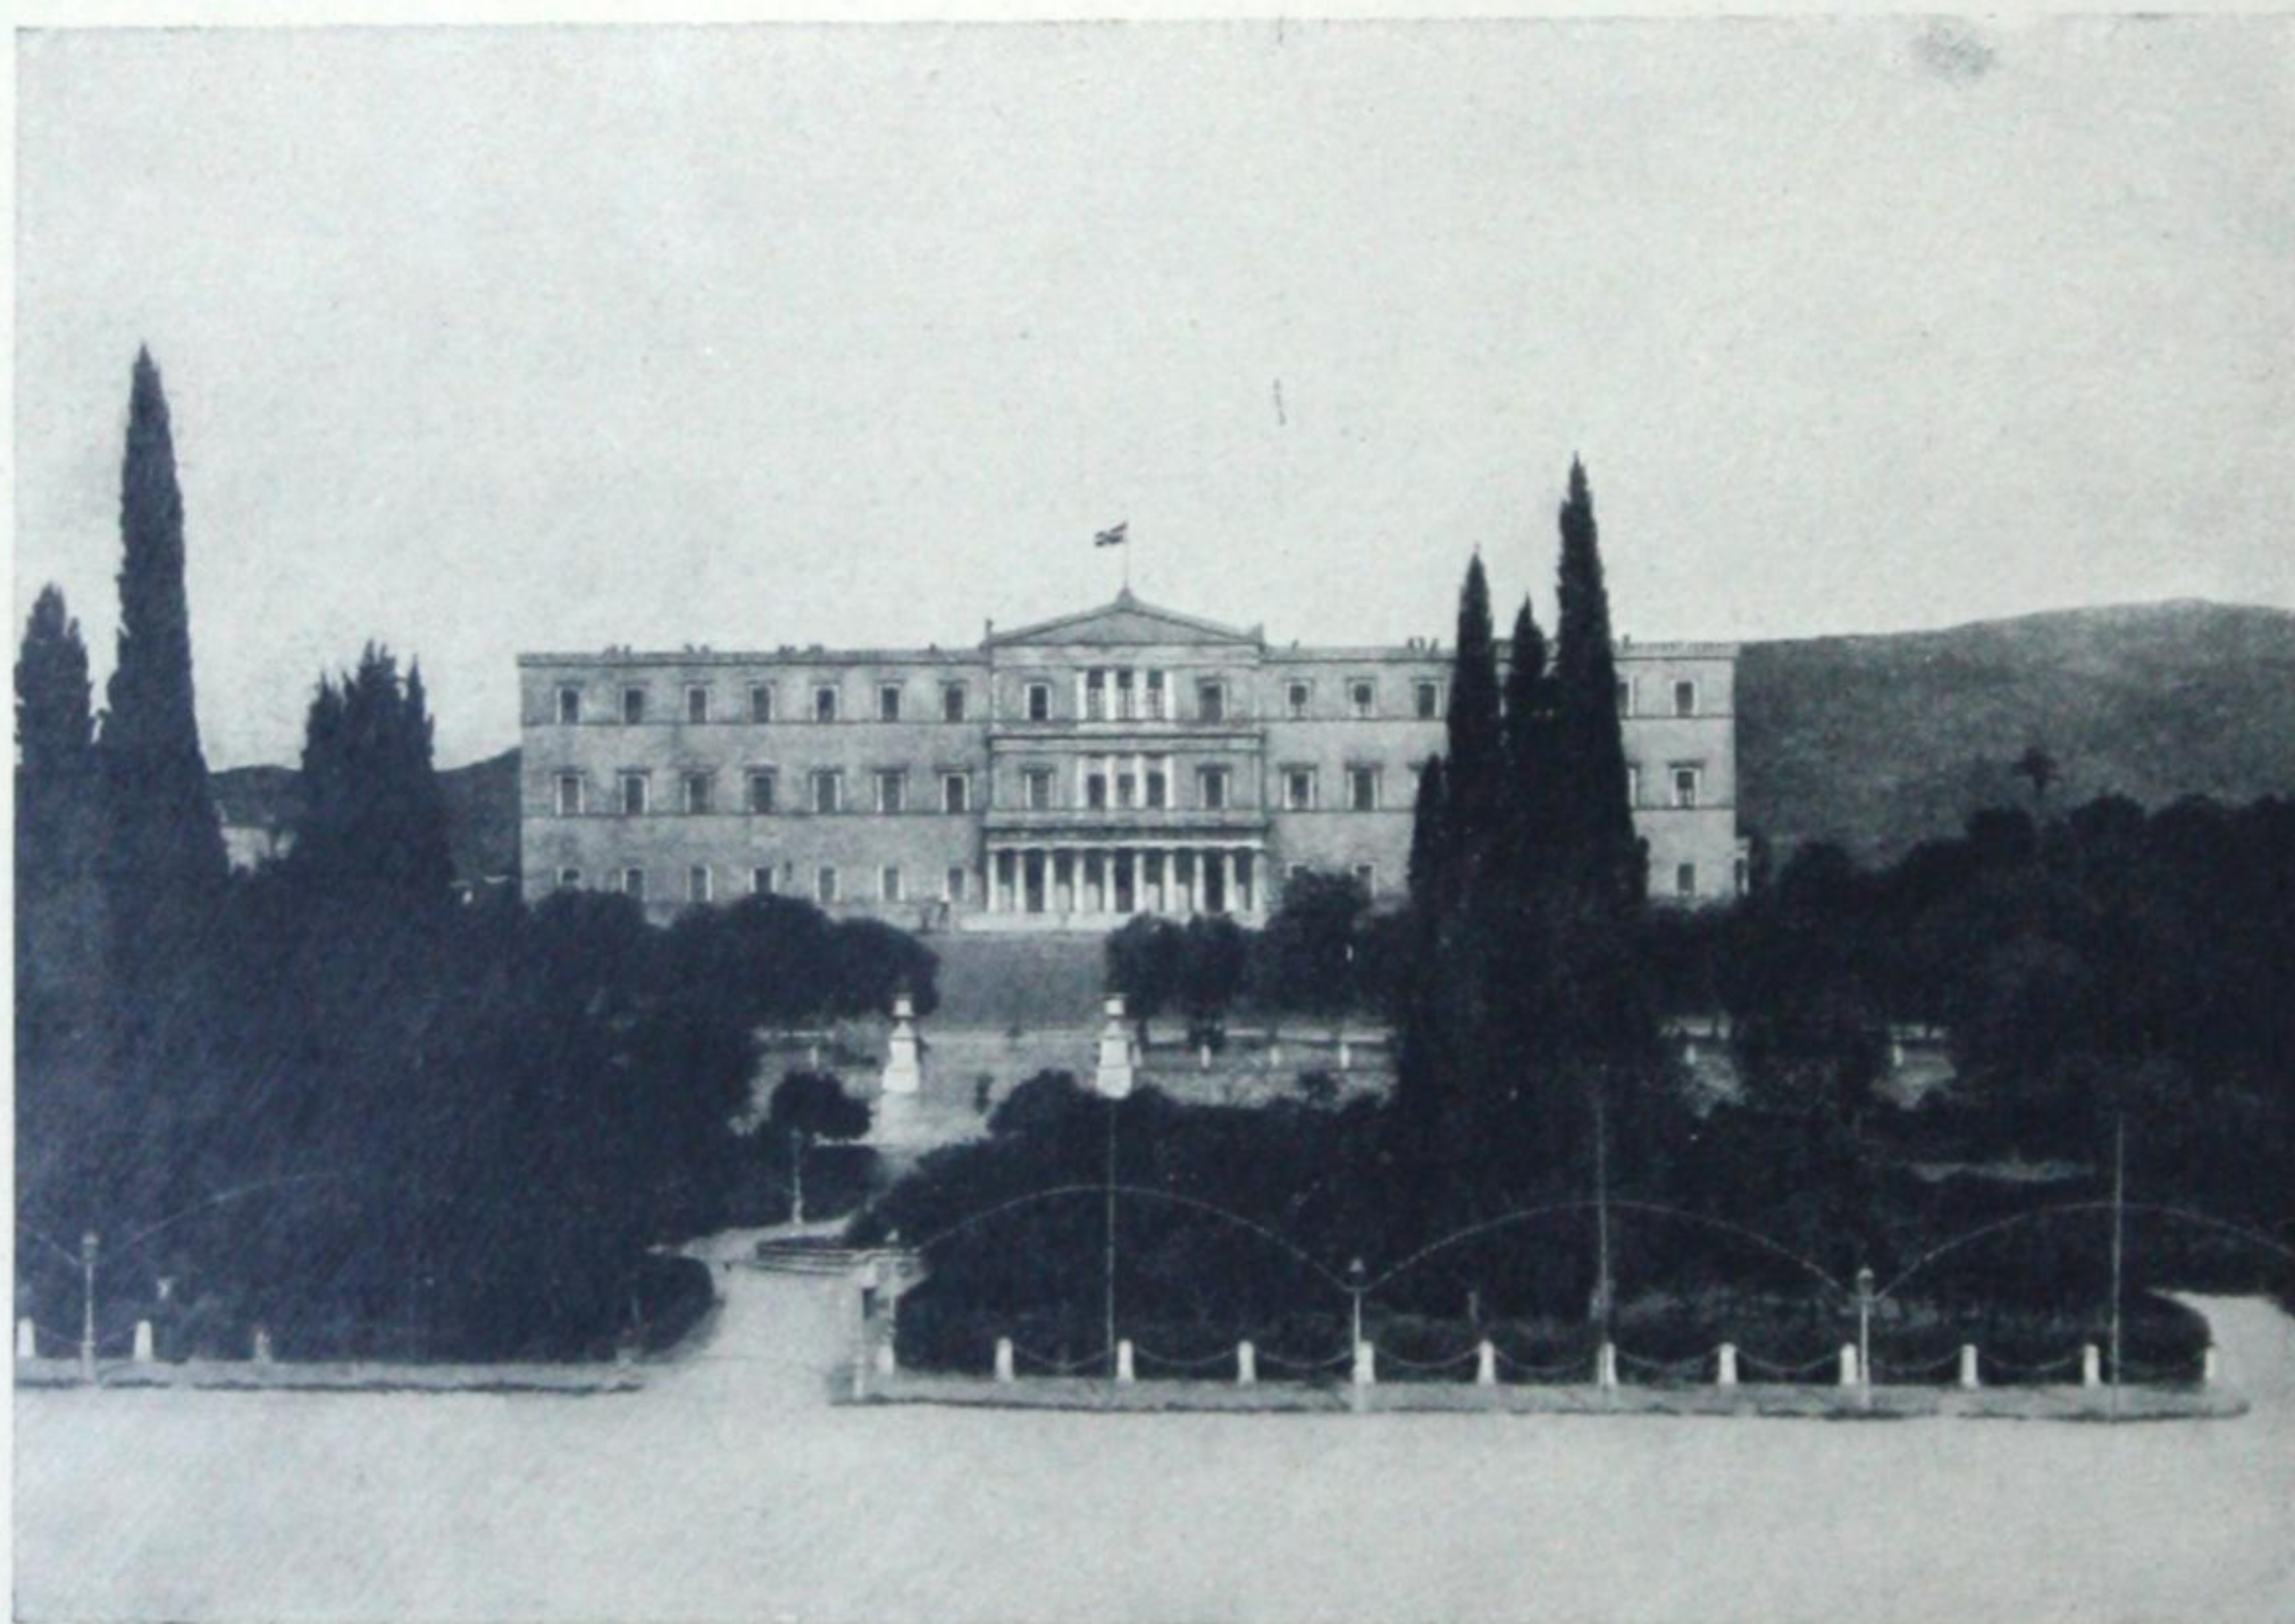

It has not yet required any important repairs.

Directors Office, Hotel Continental.

M. CARLMANN

CONSTANTINOPLE, June 16th 1920

Dear Sirs.

In reply to your request I beg to certify herewith that the Stigler Hydraulic Lift No. 6370 which was installed by you in 1908 in my Establishment has given me complete satisfaction, and it was this fact which induced me to order in 1911 a new Electric Lift No. 10886.

In spite of the continual use that this latter Lift is put to daily I have nothing but praise for its perfect working, and I take great pleasure in stating this.

I beg to main, Dear Sirs,

C. Carlmann.

M. TOKATLIAN

CONSTANTINOPLE, 27th March 1920

Messrs. Stigler, Lift Manufacturers, Milan.

In accordance with the request addressed to me by your Representative in Constantinople, I beg to state herewith that the Stigler Electric Lifts installed by you in my Hotels viz: Summer Palace Hotel, Thérapia (Bosphorus), and Hotel Tokatlian Péra are in perfect working order and I am completely satisfied from every point of view.

M. Tokatlian.

GRAND HOTEL D'ANGLETERRE

ATHENS

ATHENS, 3rd November 1911

We beg to thank you sincerely for the Stigler Lift installed 8 years ago which is working very satisfactorily. Many Foreign visitors and travellers have admired the silent working of the Lift and have stated that such a good workmanship is rarely to be found in the big Hotels abroad.

We hope that you will always succeed in producing similar Lifts.

The Director of the Hotel d'Angleterre.

POST TELEGRAPH DEPARTMENT

GREECE

ATHENS, 17th October 1911

CERTIFICATE

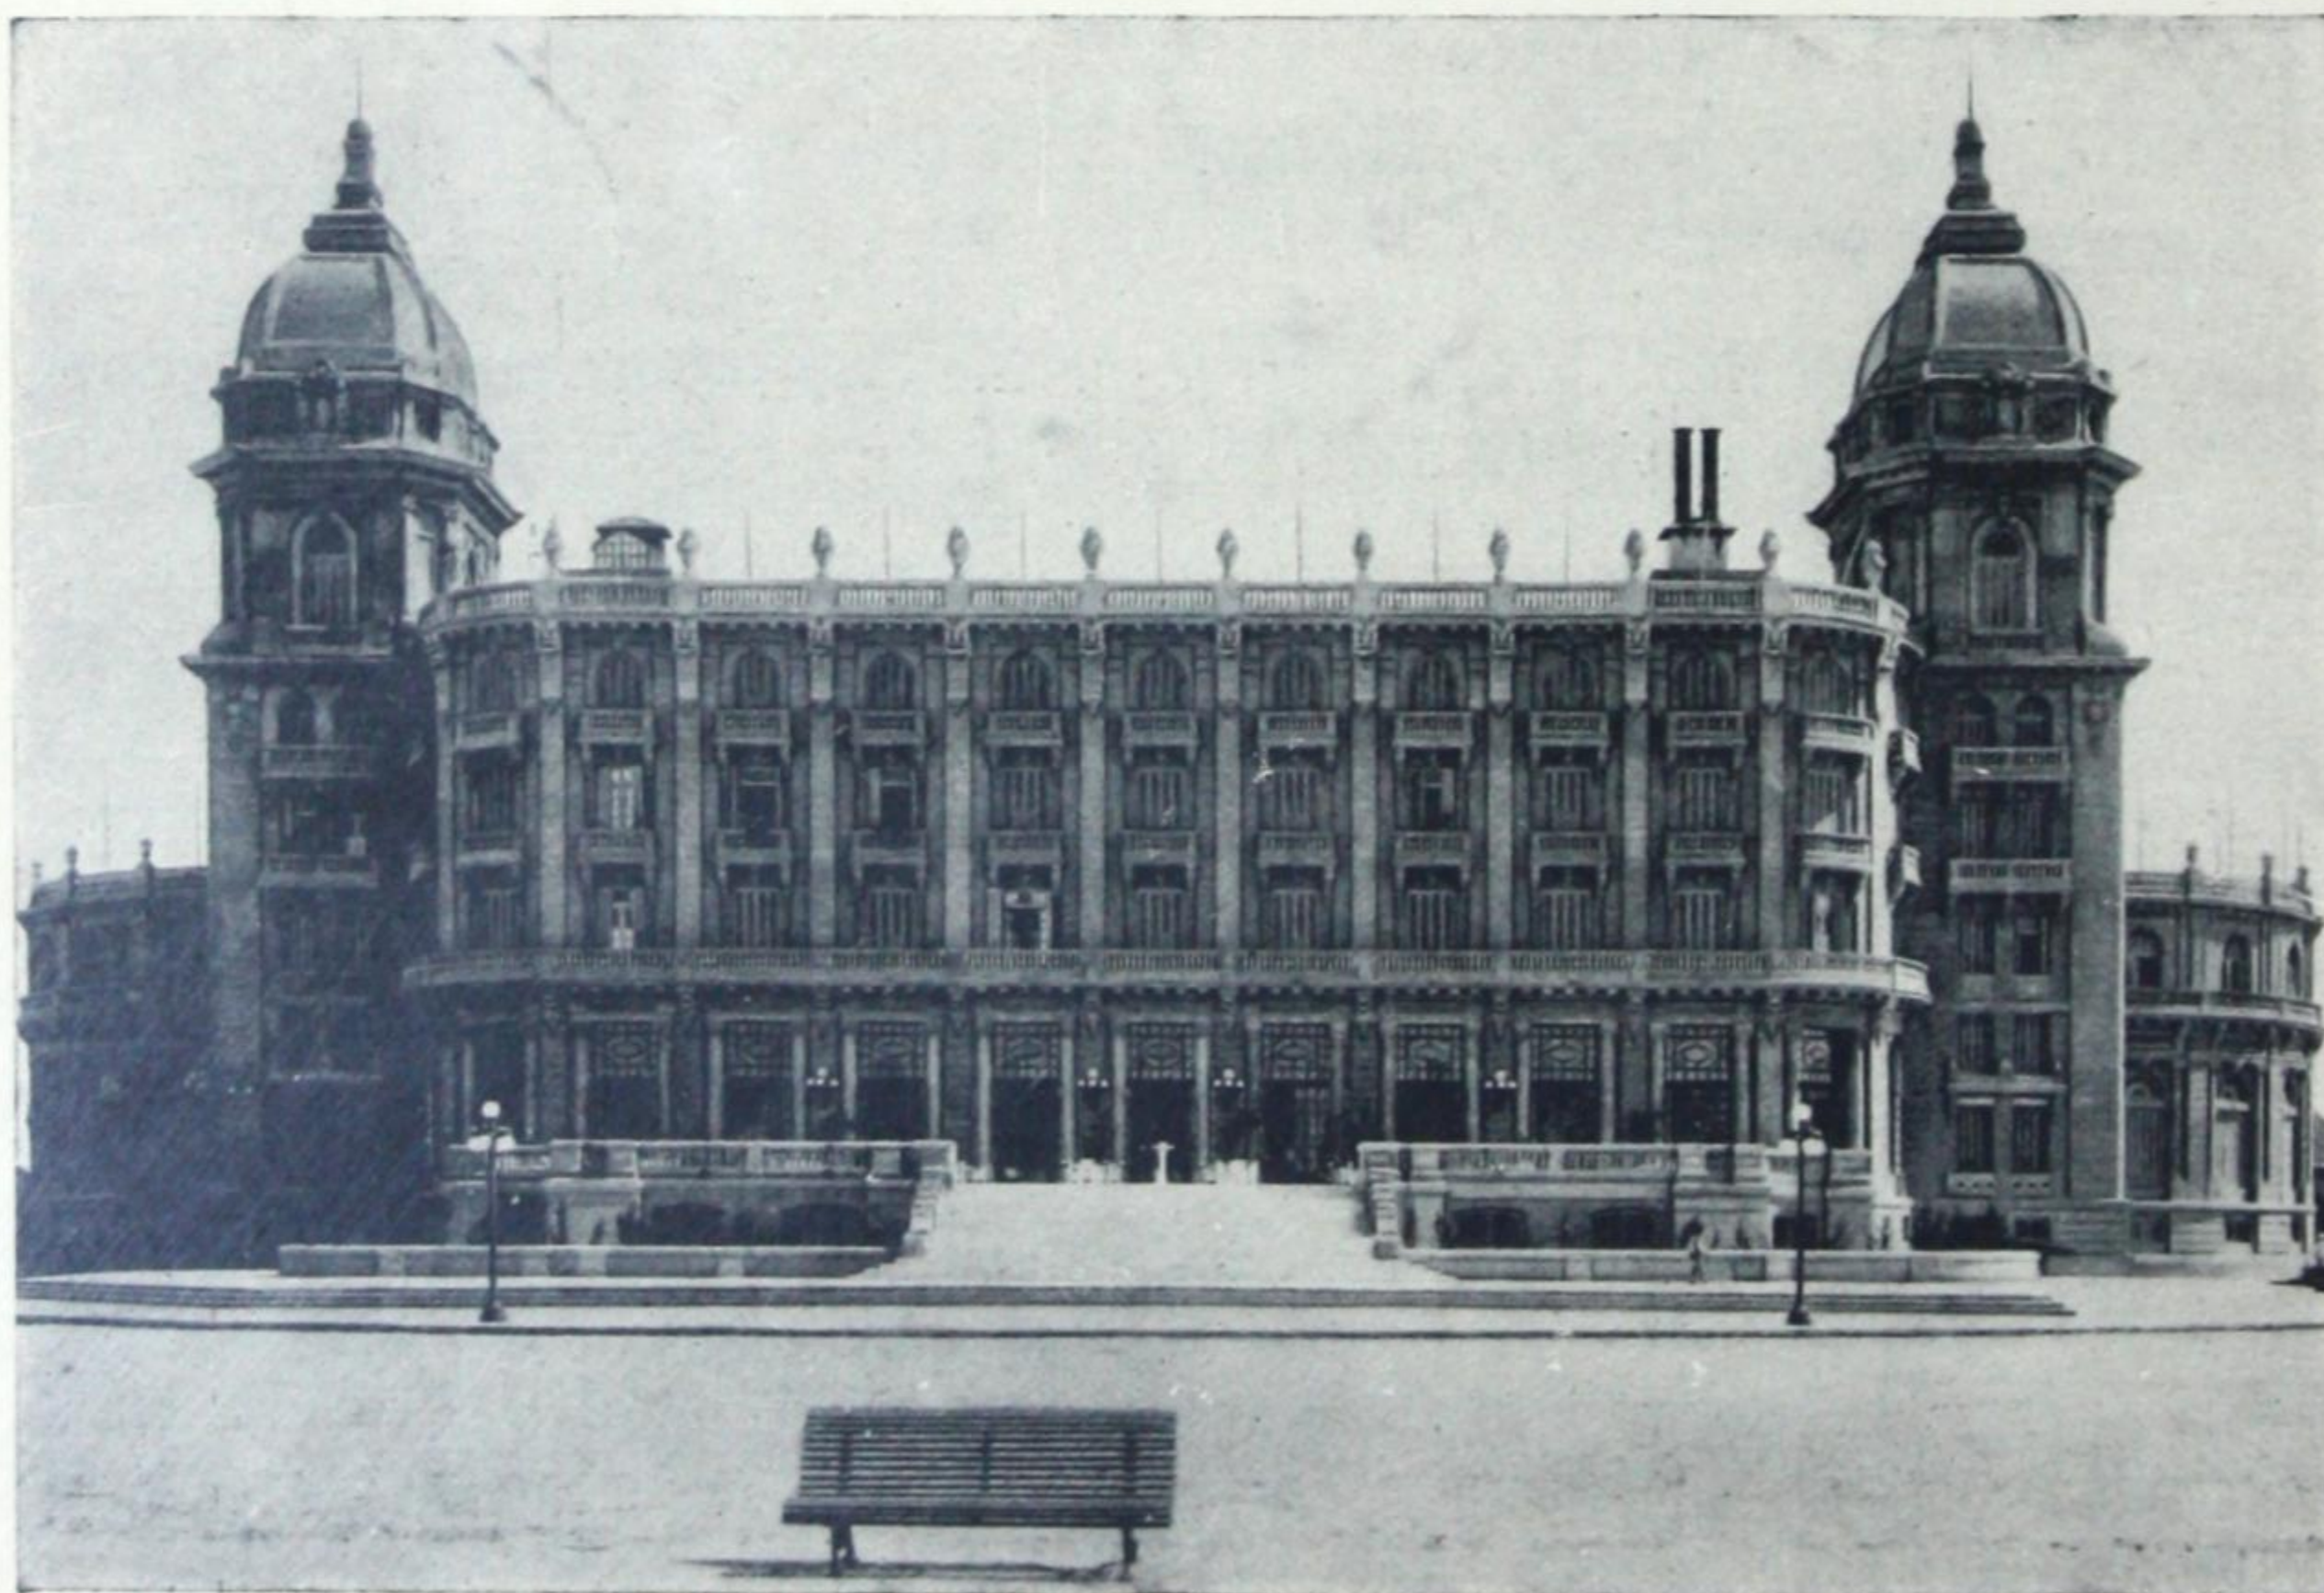

The Director General of Post and Telegraphs hereby states that the two Electric Lifts installed by Messrs. Stigler of Milan, in the Central Post Office Athens are working very well and that he is completely satisfied with them in every respect.

C. Marino, Director.
